

Lancio swing gate

The Lancio swing gate from Kopal is a stylish and elegant solution to protect your domain. Ornate spearheads and elegant rings, bottom lined with a solid flat, add value to your fence. Additionally, the spearheads create a higher security level.

The Lancio swing gate from Kopal allows a passage from 1 to 12 meters. The maximum wing length is 6 meters. The wings are attached to a solid support post having adjustable hinges that allow the wing to open 180°.

Lancio swing gate

Posts

Two post types are used for the Lancio swing gate. For the lighter versions, Unipost posts are available, having a groove profile for the adjustable mounting of the hinges and having a perforated attachment profile for fencing. These posts are 80/80 mm or 120/120 mm. The heavier posts measuring 140/140 mm and 200/200 mm have soldered hinge points and soldered attachment rods for fencing. The length of the post equals the height of the wing + ground gap + 80 cm. The stroke post measures 120/120 mm from a wing width of 3 meters. For free standing gates, it is advised to use heavier posts.

Frame

The frame of the Lancio swing gate is made of square steel tubes, which have a diameter that depends on the width of the gate. Also the diameter of the bars that are welded in the frame, depends on the height of the gate. The bars are at a distance of 15 cm a.o.a. and have a diameter of 25 mm for heights up to 2 meters and a diameter of 30 mm for gates higher than 2 meters. The bars pass through the upper and lower beams and have an ornate spearhead on top. Between the bars, steel rings are applied, that are underlined by a flat steel strip.

Locking system

Lock box with cylinder lock having a day and night lock, including 3 keys. 1 ground bolt adjustable in height is incorporated in the wing.

Finishing

Hot dip galvanized and coated with a polyester powder coating in a standard Kopal colour. Other colours are available on demand. All accessories are made of inox or aluminum.

STANDARD COLOURS	RAL CODE	
moss green	RAL 6005
